

INCREASE YOUR CLINICAL EFFECTIVENESS FOR WORKING WITH TRAUMA

Dunedin 2 day Transactional Analysis Experiential Training

Janet Redmond's dedication to recognising and healing trauma personally and professionally spans three decades. She has presented at several International Transactional Analysis Conferences. She has facilitated Personal and Professional Development workshops for 25 years. She is a registered psychotherapist and is an Internationally recognised Teaching and Supervising Transactional Analyst. Her interest is in the neurological and psychological effects of trauma in order to support Post Trauma Growth. She facilitated 'Birth Trauma' for midwives study day at Auckland Hospital and presented at the Home Birth conference in October. Janet has acquired training in EMDR, Trauma Release Exercises and Neurofeedback: Applied Neuroscience.

Using the group process Janet will demonstrate some of the key principals for working with trauma in order to support Post Trauma Growth. Limited spaces.
